WORK/PROJECT EXPERIENCE

AQEL Ltd
2022 - 2023

Director - Full-Stack Web Developer

Founded and operated a software development and consultancy firm, specialising in bespoke web applications for diverse clients. Successfully designed and deployed four websites (TCCoating.com, AStarChildminding.com, SFC-Colchester.com and ECEFG.com) using JavaScript frameworks like React and NextJS, integrated TypeScript, and built web servers using NestJS.   **[All Links Are Clickable]**

Personal

THYNK UNLIMITED

Developed a virtual assistant application for Amazon wholesale third-party sellers, featuring AI-driven web tools for supplier sourcing, product profitability analysis, inventory management, and supplier registration. Built with React, TypeScript, Python, Selenium, FastAPI, and MongoDB.   **[Details: thynk.vercel.app]**

University

VirtualCafe

Completed a Java-based coursework project, implementing a client/server model for a virtual cafe system. Utilised object-oriented programming and honed skills in object serialisation, data storage, socket programming, concurrency, and threading.

EDUCATION

Uni Of Essex
2023

Computer Science BSc w Hons

Graduated with First Class Honors, with a Capstone Project that advanced the THYNK UNLIMITED application, focusing on AI-driven tools for e-commerce. The curriculum encompassed advanced programming, data structures, algorithms, and system designs

Woodhouse College 2018	**A Levels** Biology, Chemistry, Mathematics with Statistics and Psychology	Hendon School 2016	**A Levels** 10A*-A with A* in Maths (achieved in 2015) and A in English

SKILLS
